A book of proven worth and enduring value, available in a completely up-to-date edition:

PUBLIC PERSONNEL ADMINISTRATION

Fourth Edition

By O. GLENN STAHL, *Director, Bureau of Programs and Standards, U. S. Civil Service Commission*

This is the latest revision of the distinguished volume originally prepared by William E. Mosher and J. Donald Kingsley that has long been the standard work on personnel practices in all branches of the public service. Mr. Stahl has completely rewritten the earlier book to extend the discussions of principle and philosophy, and to reflect the new trends and continuing problems pointed up by the experience of the past fifteen years. New chapters deal with "Career System Patterns," "Public Service Ethics in a Democracy," and "The Horizons of Public Service Administration." These, together with a complete bibliography on personnel administration, round out the significance of this book for practicing administrators, students, and aspirants to public service.
